Text:

This article was originally published with errors, which have now been corrected in the online version:

1. Figures 1 and 2 have been corrected due to an error in the distribution of items by dimensions. Specifically, in both

Figure 1 and Figure 2, items 19-21 correspond to sexual violence, while items 22-28 pertain to controlling behaviors. To rectify this error, we have included the revised figures in the updated version of the manuscript.
